SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

An Examiner's Amendment was discussed to overcome a possible objection due to lack of antecedent basis in claims 66 and 71. Also an Examiner's Amendment was discussed to clarify the arrangement of the angle of incidence and angle of reflection in claim 72 and claim 49 in order to overcome a possible rejection under 35 U.S.C. 112 second paragraph. It was decided that in the claims 'mirror symmetrical to each other with respect to the surface' should read -mirror symmetrical to each other with respect to a normal to the surface- to make the angles' arrangement definite. In addition, an Examiner's amendment to the specification was discussed to clarify the angular arrangement in the optical systems by correcting grammatical errors and to demonstrate the angular arrangements as depicted in the drawings with respect to a vertical, a normal to the surface. Please see attached Examiner's Amendment.

Part III.
